

Casebook 2017/2018

Czech Republic

Inspire & Create

We know our products shine brightest when they are used in great projects. We're just as proud of the designers that find new ways to use our products as we are of our product development team that created the products.

Our Casebook features some of our favourite interiors from the Czech Republic. If you want to know more about the products used, you can search for them at **interface.com**
